

Our Grants

- Helped individuals and families pay for medical bills that were not paid for by insurance
- Funded an individual's hearing aids so they could return to work
- Made it possible for a family to stay in their home by paying a mortgage payment they couldn't afford due to imminent medical needs
- Paid a family's utility bills they couldn't afford due to accumulating medical bills
- Supported a family's apartment rent to alleviate stress from other medical costs

The Medical Crisis Program was started in honor of Lyn Olson who passed away in 2012. She was a loyal wife, mother, grandmother and friend to all. She exhibited a depth of compassion resulting from her deep love of piety in her Eastern Orthodox Christian faith. She always prayed for the needs of others. Her family and friends live her legacy through the creation of a non-profit that reflects her values of loyalty, compassion and kindness.

Meeting The Needs Of Those In Crisis

The Medical Crisis Program supports individuals and families who are financially suffering from medical crisis. We do so by providing grants to help lessen financial burdens from rising medical costs.

The Medical Crisis Program is a non-profit 501(c)(3) organization. We are able to fund grants to qualifying applicants by individual donations and fundraising events. We have helped provide financial relief to individuals and families who have lost their homes, transportation abilities or work opportunities

How We Help

We have helped provide financial relief to individuals and families who have lost their homes, transportation abilities or work opportunities. We are able to fund grants to qualifying applicants by individual donations and fundraising events.
